

KPS Nehru Nagar Prevention of Dengue

Dengue has taken a dangerous turn into an epidemic in various parts of the country. The township of Bhilai and the Durg city have not escaped its total claws either young and old around the country are succumbing to this total disease with the onset of the rainy season the dengue mosquitoes have created a terror all around. This requires a consistent, group effort to be able to combat against.

KPS Nehru Nagar Bhilai have been greatly privileged to have Mr. Gaurav Singh (IAS) – The Zila Panchayat CEO, DEO Durg – Mr. Ashutosh Chowre and BEO Durg – Mr. K.V.S Rao who were concerned enough to make personal visits to every schools of Bhilai to interact with the students and share with them various precautionary meaners to prevent this total disease from spreading any further.

Mr. Gaurav Singh said that the students should take the initiative to advise people all around that they should empty any stagnant water from the air cooler and to further ensure no rain water gets accumulated in the empty air cooler either. The water tank on the roof should be emptied and then wiped with a clean cloth to kill any larva accumulation in the formerly stored water before allowing any further water storage. Even logged water in any flower pot should be drained regularly.

Mr. Gaurav Singh & Mr. Ashutosh Chowre encouraged the students to come forward to educate the people regarding the maintenance of a clean surrounding.

They also wanted them to really take interest in this Endeavour. To this the students enthusiastically promised to uphold their end of the responsibility towards a better Ep! safe community by ensuring a clean surrounding.

The school was gratified by the presence of such eminent personalities in their midst, who'd taken such active interest towards the well being of the state.
